Information Technology Software Engineering
Software Engineering Intern

To Whom It May Concern:

Please accept my application for the position of Information Technology Software Engineering Intern at Ford Motor Company. I have attached my resume for your perusal.

I am in my second semester in my junior year of college with a 3.7 GPA in Information Science attending Michigan State University. I recently acquired an internship from MSU as their Public Health Instructional Technology Support Student Intern. My responsibilities include creating accessible documents such as PDF, Word, or PowerPoint, and using assistive technologies. I assist with updating management systems such as D2L and creating ePortfolios. Additionally, I present yearly accessibility statistics to faculty and staff.

My time in school and outside school activities have given me valuable skills. These skills include using HTML and CSS to create a website to promote artwork based on the customer's favorite image in nature. My technical skills include Python, C++, JavaScript, HTML, CSS, R, and Markdown. I am highly skilled in using Adobe Creative Cloud, Microsoft Office, D2L, Figma, and assistive technologies. I spend my free time exploring new user experience apps, taking online coding courses, and attending webinars to stay informed with the newest innovative technologies. I attended a Johnson and Johnson webinar regarding their experience with Design Systems, Atomic Design, Rapid Iterative Prototyping, and making design systems that might be useful to your organization. I recently became certified as a JavaScript Entry-Level Programmer. Additionally, I attend Hackathons where I have received 1st place at PNC Bank and 3rd place at Target with my team.

I believe this internship is the perfect job opportunity for me because I am very passionate about User Experience, Web Development, and Customer Acquisition. I love interacting with individuals and collaborating with a team to solve real-world problems. This potential job field is very appealing to me and this opportunity could be life-changing for me. Thank you for this opportunity and I look forward to hearing back from you.

Sincerely,

Gergana Yordanova
